

STATE OF WASHINGTON
POLLUTION CONTROL COMMISSION Permit
OLYMPIA, WASHINGTON11.3.1
Nº 2069

In accordance with Chapter 71, Laws of 1955,
A WASTE DISCHARGE PERMIT is issued to:

Date of issue Aug. 10, 1964

Date of expiration Aug. 10, 1969

General Chemical Division
Allied Chemical & Dye Corporation
P. O. Box 40
Marches Point
Anacortes, Washington

USEPA SF

1415227

Waste not to exceed 111,000 gallons per day may be discharged to

Padilla Bay, subject to the following conditions:

1. The word "waste" in the above statement refers to the total volume of cooling and contaminated waters to be discharged.
2. Such treatment facilities as have been approved by this Commission shall be continuously and efficiently operated to produce an effluent having:
 - A. A pH range between 6.5 and 8.5.
3. Chemical sludges or sludges containing oils, or sludges having high or low pH values must be disposed of on land and not discharged to a State waterway.
4. Spoiled batches of chemicals or toxic chemical products must be ponded or lagooned.
5. Uncontaminated cooling waters are to be discharged to the storm sewer when one is available.
6. All requirements and ordinances of the County regarding the installation, construction and maintenance of septic tanks are hereby made a condition of this permit.
7. Effluent from the septic tank is to be discharged to a suitable drainfield.
8. In the event the permittee is temporarily unable to comply with any of the above conditions of this permit, due to breakdown of equipment or other cause, the permittee is to immediately notify this Commission. This report is to include pertinent information as to the cause and what steps are being taken to correct the problem and prevent its recurrence.

This permit does not allow the discharge of wastes other than those mentioned herein. A new application shall be submitted whenever a change in the waste to be discharged is anticipated.

This permit is subject to termination if the Commission finds: (1) That it was procured by misrepresentation of any material fact or by lack of full disclosure in the application; (2) That there has been a violation of the conditions thereof; (3) That a material change in quantity or type of waste disposal exists.

In the event that a material change in the conditions of the state waters utilized creates a dangerous degree of pollution, the Commission may specify additional conditions to this permit.
